

Environmental Policies

Port of Kaohsiung

The port of Kaohsiung is the lifeblood of Taiwan's economic development and plays an important role in the world trade. We are well aware of the need to balance the prosperity of the port with the ecological environment, so that the port and the environment can be developed in a harmonious manner to ensure the sustainable development of the port of Kaohsiung.

In order to express our values towards the environment, the Port of Kaohsiung, Taiwan International Ports Corporation, has established the following environmental policies, incorporating the concept of environmental friendliness into the focus of operation and development, and striving to make Kaohsiung port a model of green port.

- Fully apply the environmental management system; promote sustainable development of the green port.
- Follow environmental laws and regulations; endeavor to fulfill corporate social responsibility initiatives.
- Provide appropriate environmental education and training; enhance the environmental awareness and skills of our employees.
- Continue environmental monitoring and pollution control; reduce energy consumption, carbon emissions, and environmental load.
- Disclose environmental information regularly; establish a bridge of communication between the inner and outer port.
- Promote community participation ; co-create a friendly port-city environment.

President of Port of Kaohsiung, TIPC
